

#### VINTAGE NOTES

Winter was marked by mild temperatures with rainfall in average with previous years. Stable and sunny March and April were followed by a singular May with very low temperatures and abundant rainfall. All these factors contributed to delaying flowering and fruit set of few days. June and July were warm and dry with high peaks which made possible to recover the vegetative delay. The abundant spring rainfall and the warm and stable August allowed a smooth ripening of the grapes.

A generous vintage, pleasant and very drinkable even now. Rosso di Montalcino 2019 presents itself with a bright and intense red color.
